

NICKELTEC ANTI-SEIZE

Nickeltec Anti-Seize

Molytec Nickeltec Anti-Seize is a nickel based anti-seize compound. Developed to protect metal parts from corrosion, galling and seizing. They ease assembly & disassembly of slip fit and threaded joints. Formulated for severe environments, these products protect against high temperatures up to 1450c.

DOES NOT CONTAIN GRAPHITE

Features & Benefits:

High Temp Resistance

Formulated with high quality grease and solid lubricating agents for optimal temperature resistance up to 1450c.

Seals Against Corrosion

Displaces and seals against contact with moisture and other corrosive liquids.

Reduces Friction & Wear

Reduces metal - to - metal contact resulting in less friction & wear.

Extreme Chemical Resistance

Perfect for applications in chemical plants, oil refineries and water / sewage plants.

Packaging

7 different sizes available, tub, brush top tin, tubes, pail and aerosol.

Uses:

- General purpose machine and bolt assembly
- Nuts, bolts and studs
- Stainless steel applications
- Copper free environments
- Pumps & valves
- Marine applications
- Excellent in harsh chemical environments
- Flanges, extruders and dies
- Steam turbines

25g Pod (pack of 6) - **M902**

65g Tube - **M901**

225g Brush Top Tin - **M831**

225g Tube - **M891**

450g Brush Top Tin - **M825**

2kg Pail - **M826**

300g Aerosol - **M868**
